TESTIMONIALS & REFERENCES

Sallie Palmer has a true gift working with animals and their behavior issues. Our veterinary hospital frequently refers behavior cases to Sallie and the response and feedback has been outstanding. I've seen Sallie work some 'miracles' with pets that seemed beyond help with chronic behavior problems. *Dr. Kevin Raymond DVM, Yokayo Veterinary Center*

I have five dogs that all have different personalities. Sallie realizes that one method of training doesn't work for all dogs. Sallie adapts her training program to meet the needs of the dog and person. I have been training with her since 2002. *Ann Koch, Vice President of the Humane Society for Inland Mendocino County.*

I didn't know my Pomeranian could be trained as a service dog. With Sallie's coaching Holly assists me by finding my lost keys, opening doors on request and "going for help" when I need someone to assist me, these are just a few of her skills. *William Mulloy, service dog client.*

Sallie has taken some of our harder-to-place dogs that have had behavior issues or simply needed a leg up in order to be adopted. She has successfully worked with these dogs and eventually they were placed in good homes. I recommend Sallie as a dog trainer. *Karen Schaver, Director of Lake County Animal Services*

Sallie and Fredo

Sallie Palmer has over 20 years experience training dogs and their people. She has trained working dogs including police canines, narcotic detection dogs, search & rescue dogs and service dogs. Her passion is working to bring people and their dogs together as a team.

Sallie volunteers with rescue organizations and believes all dogs should be given an opportunity to be well mannered.
